# ENGLAND V NEW ZEALAND

## ENGLAND

---

**Henry Slade** – Of the 24 penalty kicks to touch attempted by England in the M6N 2024, Henry Slade attempted the majority with 10. On average Slade gained England 28.5m of territory per kick – bettering England’s other kickers who gained an average territory of 20.9m per kick.

Furthermore, Slade owned England’s top 4 longest kicks to touch when looking at the distance they travelled in the pitch (44.4m, 43.7m, 41.8m, 39.2m). This also bettered all centres in the tournament.

**Jamie George** – Jamie George threw 52 lineouts in the M6N 2024 an average distance of 8.2m. Of these 52 lineouts he successfully completed 47, giving him a success rate of 90%. This rate was greater than the tournament average of 85.5%.

George had a lineout efficiency rate of 95.6%, bettering the tournament average of 94.8%. Lineout efficiency refers to how clean the ball is thrown in order to achieve the perfect ‘spiral’.

**Kicking** - England elected to kick once every 4.3 passes: a tournament low. The tournament average was 5.4 and Ireland were the tournament leaders with 7.1 passes for every kick. This suggests that England values their position on the pitch (territory) over possession of the ball.

Despite England’s dominant kicking tactic they actually had the lowest average territorial gain from in play kicks at 25.2m during the Men’s 6N 2024.

In the M6N 2024, England led the tournament in for Box Kicking and Up and Unders with 51 and 24 kicks respectively. This is an area to keep an eye on considering the loss of their starting 9 from the M6N 2024, Alex Mitchell.

**Possession** - England had a total of 18 possessions in the M6N 2024 that had 10+ passes, beating only Italy who had 14. Ireland were the tournament leader with 31 possessions with 10+ passes. Furthermore, England averaged a tournament low 4.9 passes per possession, a figure to be expected given their tendency to kick for territory.
